

## **DOE-TI Frequently Asked Questions (FAQs)**

**Q.** My school corporation is a public school corporation but the name of a nonpublic school appears on my DOE-TI report. Why does this nonpublic school appear in Collection Management?

**A.** The nonpublic school is was included in your corporation's Title I application as a facility to be served with the Title I funding your corporation received. As such, if the nonpublic school served students using Title I funds, then data for the nonpublic school must also be reported by your school corporation.

**Q.** My school corporation had a parent request a transfer under School Choice and the corporation arranged for the student to attend the selected school of choice. However, the student's parents later changed their minds and decided to keep the student in the school of residence. How should this student be reported in the School Choice field (Field 22) of the DOE-TI? The school corporation does not want it to look like we refused to transfer the student.

**A.** In Field 22, please use Code 1 (Requested but did not receive a School Choice transfer) for the described scenario. It is understood that there are a variety of reasons why a student may request a School Choice transfer but not receive it, including situations like the one described.

**Q.** My school operates a school-wide Title I program and all students are reported for Title I. Must a student have completed the instruction at this school during the grading period? How long must a student receive Title I services to be reported on the DOE-TI?

**A.** Schools operating a school-wide Title I program should report all students as having received Title I services regardless of the period of time that a student has received the services.

**Q.** What reporting year is the district reporting on?

**A.** The district should report students based on Title I services in the 2009-2010 school year, including the summer of 2010.

**Q.** Should the district count students who were served by Title I, Part A ARRA (Stimulus) dollars?

**A.** Yes, this collection should include those students served by Title I and/or Title I ARRA funding at any time during the 2009-2010 school year, including the summer of 2010.
